---

To Whom It May Concern:

I am a nurse-- Univ. of Penna.-- and am appalled at the newest mandates requiring 100% participation in providing medical care, and 100% participation in paying for this medical care -- on people and organizations who are strongly, morally, religiously against such activities. In short, this is wrong.

As a young nurse I was forced to participate in an abortion, and was told to 'flush it away' -- I will never forget the horror I experienced then, and to this day, as that tiny living thing was discarded with blood and bodily waste. Those who haven't been there just don't know what they are talking about -- a fetus -- you are kidding.

**DO NOT MAKE ME PARTICIPATE IN SUCH ACTIVITIES. DO NOT MAKE ME PAY FOR THESE ACTIVITIES, EITHER BY TAXES OR BY PAYING FOR MY EMPLOYEES MEDICAL CARE. THIS IS INVASION OF MY BELIEFS, MY LIBERTIES.**

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. If you do not reverse course I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections. I strongly oppose the government forcing free insurance coverage on Americans especially for drugs and devices that I oppose because some of these can cause an abortion (such as ella and Plan B).

I also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees. This legal mandate clearly violates the spirit of conscience laws which prohibit government discrimination against those who object to various health services on moral or religious grounds. The definition of "religious employer" in the regulation is so narrow as to only include churches, but will still mean that a host of businesses and organizations that have conscience objections will be required to choose between either violating their conscience or not being able to offer employees health insurance.

Please protect the conscience rights of insurers, providers and people like me who object to being forced by the federal government to offer or subsidize contraceptives and sterilization services, especially when some of these drugs can take the life of early unborn children. No Americans should be forced by the federal government to essentially subsidize services they object to. I again urge you in the strongest way possible to reverse course and remove contraceptives and sterilizations from the list of mandatory preventive services.

Sincerely,  
Dorothy Martin, RN
